

Realizing a Community Dream

KEEP IT GROWING!

A fund for ongoing beautification and habitat preservation of library and park gardens

The grounds of the new park and library will have several areas featuring native plants, riparian plants, and pollinator plants. These special beds will be permanent demonstration areas for the public to learn about and enjoy. Special attention a few times a year will include pruning, replanting, and mulching.

FLF, in collaboration with the Volunteer Coordinator of Santa Cruz County Parks, will be enlisting community volunteers interested in learning about and helping maintain these special areas. Classes several times a year will be provided to the public at no charge to learn how these plants promote a healthy environment and how they can be incorporated into home gardens.

The "Keep it Growing Fund" will provide tools for volunteers, new plants to replace areas in need of rejuvenation, and other necessary supplies. This fund will ensure that the planted areas remain beautiful for years to come.

***Donors may contribute any amount. Go to: www.FeltonLibraryFriends.org
or mail your check made out to Felton Library Friends, PO Box 1245, Felton, 95018
Please put "Keep it Growing" in the memo line of the check.***
